

When You Partner with Maybury Farm, Everybody Wins!

You don't hear that very often, but consider this - as a local non-profit, partnering with us helps the **Northville Community Foundation & Maybury Farm** reach its mission to educate, **families** within the community have fun while they learn about farm animals and agriculture and **our Partners** benefit from the recognition and appreciation gained in bringing special events and educational programs to the farm.

Maybury Farm, a landmark in the Northville community for over 100 years, is a working farm with a mission to connect the community to animals and agriculture through hands-on experiences that are engaging and educational.

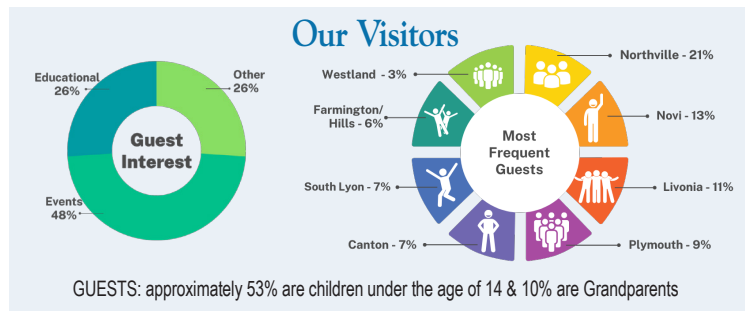

In 2023, more than 35,000 guests visited, participated in educational programs and attended fundraising events at Maybury Farm. In addition to our many general admission visitors, we have educational programs that are designed to reach all types of learners of all ages - from our preschool Watch-Me-Grow program to our Spotlight on

Maybury Farm tour for older adults and so much in between! Families can learn about and engage with up to 18 different farm animal species. And, the Farm holds up to 7 yearly fundraising events that are not only educational, but great fun for everyone!

As a Partner, it's good to know that not only are our visitors diverse in age, but, because Maybury Farm is located adjacent to Maybury State Park, we draw visitors from all over southeastern lower Michigan. In fact, Maybury Farm was proud to be named the **#1 Place to Take Kids** by *Kids Out & About* in 2023 by those same visitors!

Like you, we look for new and meaningful ways to engage with and expand our audience - our diverse offerings and educational focus provide a unique opportunity for you to reach people of all ages, from all walks of life.

Our Partnership opportunities are available in the areas of education, animal care, maintenance as well as our farm garden.

As our Partner you'll, be recognized on our promotional marketing materials and signage during educational programs or on the site of improved areas. Plus, our Partnership are available at many levels and are customizable.
